LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED-FOURTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, June 16, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father, be gracious to Thy servants here, the legislators of this state. Give them strength for the tasks of this day and guide them in their labors. When they are tempted to wonder whether their high goals are possible of attainment, remind them that Thou art not senile, or asleep, or defeated. Yet, a different world cannot be built by indifferent people. So let us never give up hope for the possibility of change. When we feel the pressure of crisis, remind us that Thou hast plenty of time. We have to remember that Thou art never in a hurry and will not be rushed by the deadlines of impatient men or by the pressures of the selfish. So give us the determination to seek and to do Thy will. Amen.

The roll was called and all members were present except Messrs. Budd, Burbach, Danner, Harsh, Klaver, Kremer, Moylan, Nore, R. Rasmussen, Ruhnke and Skarda, who were excused and Mrs. Hughes, who was excused until 10:45 a.m.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED-FIFTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, June 19, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Adamson presiding.

Prayer was offered by Rev. Glover A. Leitch, The First Presbyterian Church, Lincoln.

Prayer

Lord God, Thou hast made this day and it is thine. At the beginning of it, help us to remember that we do not own the hours, we do not create the time, for our times are in Thy hand. As the sun shines upon the hills and fields of our state, and as it brings light to our nation, so grant, O God, that this day may bring us one day closer to the emancipation of all human spirits; to the accomplishment of peace with justice in every land; to the fulfillment of Thy will for these United States. Bless, O Lord, the men and women of this assembly; that today they may be conscious of Thy guidance, and that, at the close of the day, they may have joy in work faithfully done. We ask this in the Name of Jesus Christ. Amen.

The roll was called and all members were present except Messrs. Batchelder, Bloom and Burbach, who were excused; Mr. E. Rasmussen, excused until 9:30 a.m. and Mr. Viehmeyer, excused until 9:45 a.m.

Tuesday, June 20, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Adamson presiding.

Prayer was offered by Rev. Kenneth C. Stewart.

Prayer

O Thou who hast given us so much in life and hast ordained that through work we earn our daily bread, we thank Thee for the work to which we are called today and would invoke Thy blessing as we face it together. In all our deliberations arm us with strength to fight falsehood with truth. Keep us from contentment that stifles the voice of duty. Arouse us from ease which can be deaf to the cries of the poor and the hurt of our society. Grant us wisdom, O Lord, to order life within our state upon the principles of justice and brotherhood and for the conquest of covetousness and want, for Thy name's sake we ask it. Amen.

The roll was called and all members were present.

UNANIMOUS CONSENT—Print in Journal

Mrs. Hughes asked unanimous consent to print the following letter in the Journal. No objections. So ordered.

April 21, 1967

Senator Lester Harsh
Chairman, Education Committee
Capitol Building

Dear Senator Harsh:

On Tuesday, April 18, Mrs. Havronek and my wife appeared before your committee to support the amendment to L.B. 747. Previously, I had appeared before your committee to oppose L.B. 618. Mr. Brauer has questioned our motives before your committeee and I believe it vitally important for you to have a clear understanding of our actions.

The basic problem in Nebraska's Public School education today is the lack of cooperation between rural and town populations. The reason we oppose all legislation which would help form Class VI districts is simply that these districts serve to aggravate the division between town and country. Our state cannot afford such a division if it is to progress. This division is much greater than education. These people in the rural areas are being taught to fear and distrust the businesses of our towns. In our section of the state, we find this distrust penetrating even our churches.

In order to consolidate these feelings into a political entity, the N.S.I.A. was born. We have seen what it is doing to our part of the state and have no doubt that it is spreading all over the state. For the good of our state this process *must be stopped.* School reorganization has been the chosen battlefield and it is our belief that this is where it must be defeated. Unify our schools and we can rebuild the unity between town and country.

In final emphasis, I wish to state that I am a successful Physician and Surgeon. I have been elected to the Board of Directors of the Nebraska Chapter of the American Academy of General Practice and the House of Delegates of the Nebraska State Medical Association where I serve on two standing committees. Therefore, my recent decision to leave Atkinson and find a location in another state or in a unified school district in Nebraska should serve to illustrate how important *we* feel this problem to be. I might add that I know of two other General Practitioners in Nebraska who have reached the same decision. The Law profession can give you the same story about retaining attorneys in the small towns of our state. The Dental profession is having the same problem.

For the sake of our state, our educational system *must* unify the town and country people. Your committee is in the position to do this great task. Please use your prestige for this purpose.

Sincerely,

(Signed) James E. Ramsay, M.D.
Atkinson, Nebraska

Introduced by C. W. Holmquist, 16th District; Albert A. Kjar, 39th District; George C. Gerdes, 49th District and Elmer Wallwey, 17th District.

WHEREAS, the United States Bureau of Reclamation has planned a 345,000 volt transmission line from Ft. Thompson, South Dakota, to Grand Island, Nebraska; and

WHEREAS, an appropriation to start construction of this most vital and desirable line is under consideration in the Congress of the United States.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That the Nebraska State Legislature supports and urges the construction of the 345,000 volt transmission line from Ft. Thompson, South Dakota, to Grand Island, Nebraska, as a very necessary step to help avoid blackouts and to benefit the entire Missouri River Basin by the sale of energy that would otherwise be wasted.

2. That the Nebraska State Legislature respectfully urges that Congress make the necessary appropriation for the construction of this line.

3. That copies of this resolution be sent by the Clerk of the Legislature to each United States Senator and Representative from Nebraska with a request that a copy be provided to the members of the appropriate committees of Congress.

Prayer

Most gracious and loving God, who didst bring us to birth in a good land and cause us to dwell in this land of peace, Thou hast blessed us with bounty beyond what we have asked or deserved and with a common prayer to Thee we offer our humble thanks. Strengthen us to meet the possibilities of this day with courage and dedication. Let us never be content while men know hunger in our cities. Deliver us from insulating privilege that obscures the needs of humanity; from pride that scorns to do the servant's task; from poverty of faith to discern thy will for us and for our times. RESOLUTIONS

LEGISLATIVE RESOLUTION 52. Re: Reappoint Committee on State and Local Highway and Street Problems

Introduced by Terry Carpenter, 48th District.

WHEREAS, the 1965 Nebraska Legislature recognized the critical need for a comprehensive study of all public roads in Nebraska to determine our engineering needs, to attain more equitable financing of our road needs, and to realize improved management of road systems at all levels of government; and

WHEREAS, the 1965 Legislature adopted a resolution implementing such a study under a nine-member committee of the Legislative Council; and

WHEREAS, that committee did conduct an intensive study of our public roads systems over a 20-month period with the technical assistance of three nationally-recognized engineering and management consultant firms; and

WHEREAS, the conclusions and recommendations of the consultants in each of the three phases of study could not be completed until well past the mid-point of the 1967 legislative session which precluded detailed examination of their findings during the 1967 session; and

WHEREAS, the pressing need continues to evaluate the findings of the highway consultants and to propose legislation to implement those recommendations deemed applicable and practical; and

WHEREAS, the Governor of the State of Nebraska has expressed the desire to have the great majority of highway matters considered in an extraordinary session of the Legislature to be called following a decision of the Nebraska Supreme Court on the constitutionality of proposed legislation authorizing bond financing of certain highway improvements,

NOW, THEREFORE, BE IT RESOLVED, BY THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

2. That this study committee be directed by the Legislature to continue and complete its study on these public road problems, to

hold public hearings on proposed legislation implementing those recommendations of the consultants it deems most applicable and practical for improvement of Nebraska's public roads.

3. That this study committee draft legislation on public road matters in preparation for the next regular session or an extraordinary session of the Legislature if the Governor should call one to consider highway matters.

WHEREAS, no effort has been made to study the advantages or disadvantages of such mergers of the rural public power districts; and

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

ONE HUNDRED-EIGHTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, June 22, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by Rev. Kenneth C. Stewart.

Prayer

O Lord as we resume our work today we would invoke the guidance of Thy Spirit. We pray for power to distinguish the wheat from the chaff amidst the pressures of our daily life. Thou knowest full well we are beset on every hand with words and promises without end. We are offered easy solutions without number. Sometimes we are tempted to confuse the big issues with the small, to mistake propaganda for truth. Enable us by Thy searching spirit to discern the true from the false so that we may support that which is genuine and for the good of the people. Guide and strengthen all those who seek peace and pursue it. Bless the efforts of all who seek the quelling of hostilities and the realization of enduring peace. So hear our prayer and accept the service of our lives in his name who taught us how to live and how to serve. Amen.

The roll was called and all members were present except Mr. Swanson, who was excused.

The President, the Speaker and
Members of the Legislature

Senators of the Seventy-Seventh Session:

I am returning to you herewith LB 674 without my signature for the following reasons:

1. This legislation implicitly repeals section 77-201 of the Nebraska statutes which states that "all tangible property . . . in

this state . . . shall be valued at its actual value. . . and shall be assessed at thirty-five percent of such actual value." LB 674 states that if non-railroad property within a county is assessed at a value other than thirty-five percent of actual value, the State Board of Equalization and Assessment shall assess railroad property at the same percentage. In other words, if non-railroad property in County A is assessed at 25% of actual value, railroad property must also be assessed at 25% of actual value. Likewise, if non-railroad property in County B is assessed at 40% of actual value, railroad property must also be assessed at 40% of actual value. The State Board must then *certify* the resulting assessed value to the county clerk. If this procedure is carried out, the State Board will obviously have officially admitted that property within Nebraska is not being assessed at thirty-five percent of actual value—a distinct violation of its present statutory responsibility. In other words, LB 674 becomes a viable statute only if the State Board of Equalization and Assessment fails to carry out its responsibilities under section 77-201.

Although Nebraska no longer has a state property tax, hundreds of other governmental entities levy taxes in two or more counties. As a consequence, it is doubtful that we will ever be able to eliminate the equalization function at the state level. If such function is to be eliminated, it should be accomplished by the express terms of a repealer statute, and not in an implicit manner through passage of a bill such as LB 674.

2. The end result desired in LB 674, *i.e.*, non-discrimination against railroad property, can be provided through proper administration of existing Nebraska statutes. For example, section 77-507 gives the State Board of Equalization and Assessment the power, in equalizing assessments, to increase or decrease the assessed valuation of any class or kind of property whenever necessary to make such assessment conform to law. If the Board carries out its responsibilities under (1) section 77-507, (2) section 77-506, which gives the State Board additional authority to equalize assessments, (3) article VIII, Sec. 1, of the Nebraska Constitution, which requires that tangible property taxes shall be levied by valuation uniformly and proportionately, and (4) section 77-201, discussed above, railroad and other tangible property must be assessed at thirty-five percent of actual value throughout Nebraska.

Respectfully submitted,

(Signed) Norbert T. Tiemann

Governor
State of Nebraska

Friday, June 23, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by Rev. Kenneth C. Stewart.

Prayer

Almighty God, our Father we have been meeting for many days in this hall as legislators. At the beginning it was with freshness and enthusiasm that we assumed our work. But as time goes on O Lord it is so human to tire and grow weary. We have conscientiously debated many issues and there remain still others to be considered. Help us today to find renewed strength for that which needs to be done remembering thou has bidden us not to be weary in well doing and that in due season we shall reap if we faint not. So bless our efforts this day and thy people whom we serve. For Thy name's sake. Amen.

Prayer

Almighty God, our Heavenly Father; we thank Thee for the beauty of this morning, and for the strength of life Thou hast given us. The earth shows its richness and fertility; the fields move toward ripening harvests; the abundance of another summer's day is evident all about us. As we meet here to begin the work of this day, give us grateful hearts, we pray; grant that we may not accept Thy gifts ungraciously or thanklessly; but help us, by word and work, to be worthy of the bounty of this land. For our country and its leaders; for this state and these legislators; for all positions of authority and judgment; we ask Thy special blessing and wisdom now. Give us honesty of motive; gladness of heart; ability in work; and strength in worthy action. This we ask in the Name of Christ, our Lord. Amen.

UNANIMOUS CONSENT—LB 494 and LB 815

Mr. Marvel asked unanimous consent to have the following proposed Budget Committee amendments to LB 494 and LB 815 printed in the Journal.

No objections. So ordered.

7. Necessary Amendments

The purpose of this section is to list the various amendments, with a rationale for each, that we believe are necessary to ensure sound and working legislation to carry out the intent behind LB 494. All of these amendments relate to the amended version of LB 494 and the seven amendments to this version.

The first three amendments change the benefit formula in accordance with the discussion in section 5 of this report. The rationale for these amendments was discussed there.

1. In section 8, lines 9-10 strike "plus one per cent of the final excess federal old-age and survivors insurance compensation of the member".
   In section 8 strike lines 24-26.
2. In section 8, line 20 change "five" to "ten".
   In section 8, line 21 change "sixty" to "one hundred twenty".
   In section 8, line 21 change "five" to "ten".
3. Section 6 shall be amended by reinstating stricken language and striking new language.

The remainder of the amendments will be described with a rationale for each.

4. In section 1, subsection (29) strike "administrator of the group annuity contract" and insert "underwriter or trustee of the retirement system.

Rationale: This language is necessary to allow trust companies as well as life insurance companies to invest the funds of the retirement system.

5. Section 3 should be deleted.

Rationale: Section 3 referred to the new administration board established in LB 494. However, the amendments reestablished the Board of Educational Lands and Funds as the administration board. Therefore, section 3 is unnecessary.

6. Strike the amendments to section 4 and insert the following amendments into the original bill: Subsection (1)—In line 4 insert "or trustee" after "underwrite". In line 6 insert after "system" "Provided, that if a bank or trust company is chosen as the primary carrier that the funds shall be invested according to the same rules and regulations imposed on the State Investment Council as specified by statute." Subsection (2)—In line 7 insert "or trustees" after "underwriters". Subsections (3) to (6) remain unchanged.

Rationale: The purpose of these amendments is to ensure that either a life insurance company or a trust company can be selected to invest the funds. They also provide for some restriction on trust company investments (primarily a 25% limitation on common stocks) instead of allowing a full "prudent man rule." This is in line with the recommendation of the Retirement Systems Advisory Committee. We believe these amendments are superior to the previous amendments. In particular we find amendment 1(c) allowing variable annuities and 1(d) allowing the full "prudent man rule" objectionable.

7. In the amendment to section 7, line 29, strike "one hundred" and insert "fifty".

Rationale: Fifty days of substitute teaching would appear to be adequate. One hundred days would allow an annuitant to substitute teach over half the school days in a year and still receive his annuity.

8. In section 7 strike lines 9-17 and insert: "The amount of any individual service annuity for a full time school employee or emeritus member shall be one and one half dollars per month for each year of service prior to July 1, 1967, except that the amount of any individual service annuity for a full time school employee or emeritus member who retired prior to January 1, 1965, and not eligible for Social Security benefits, shall be two dollars and twenty-five cents per month for each year of service; Provided, that no such payments shall be made unless application is made therefor by the person entitled thereto and such application shall carry the verified statement that the applicant is not receiving Social Security benefits. The amount of any individual service annuity for a full time school employee shall be four and one half dollars per month for each year of service thereafter."

Rationale: This amendment is necessary to avoid reducing benefits being paid to certain retirees. It is poor public policy to reduce the retirement benefits being paid to existing retirees.

9. In section 8, line 39 strike "thirty" and insert "forty".

Rationale: This corrects a typographical error. The original LB 494 had "forty".

10. Combine sections 9 and 10 into one section.

Rationale: This clarifies that section 10 is the new version of 79-1530.
This is consistent with the handling in LB 781.

11. Strike section 10 and the amendments to section 10 and insert a new section 10: "At any time before the retirement date a member may elect to receive his school retirement allowance or his disability retirement allowance under any optional form specified in the group annuity contract, if one exists, or under any optional form permitted by the retirement board, if no group annuity contract exists. Such optional annuity shall be the actuarial equivalent to the normal straight life annuity."

Rationale: This language clarifies the problem of what optional forms are permitted if there is no group annuity contract. The amendment was unclear; it also referred to variable annuities which cannot be used to fund the retirement system.

12. Strike section 12 and the amendments to section 12 and insert a new section 12: "On June 30 of each year the retirement board shall credit the account of each member in the School Employees' Savings Fund with interest at the rate determined by the primary carrier."

Rationale: This language clarifies the situation if there is no group annuity contract.

13. Section 14 should be amended by reinserting stricken language and striking new language.

Rationale: The original amendment was a holdover from LB 781 which is not now necessary. There is no need to remove the existing provision.

14. In section 17 strike lines 5-9 and insert: "Not later than January 1 of each year the State Treasurer shall transfer to the Annuity Reserve Fund the amount certified by the retirement board as being necessary to maintain assets in such fund as of the previous June 30 equal to the following percentages of the present value of all future payments of benefits from such fund, namely, the actual percentage of such assets to such present value at June 30, 1966, which percentage shall be increased by 3% for each full year elapsed since that date but not to exceed 100%."

Rationale: The purpose of this section of the statutes is to ensure the funding of the current unfunded liability over a reasonable period of time. The above wording was proposed by Robert Flott, consulting actuary to the NSEA. We believe that this language is preferable to the existing language.

15. In section 19, strike lines 3-8 and insert: "The Annuity Reserve Fund shall be the fund into which shall be transferred upon a retirement the accumulated contributions from the School Employees' Savings Fund, the value of any state service annuity from the Service Annuity Fund, and the value, if any, of a contribution from the School Employers' Savings Fund upon the granting of a formula annuity and from which shall be paid all savings annuities, service annuities, and formula annuities as provided in sections 79-1501 to 79-1553."

Rationale: This amendment is necessary to correct two errors in the present version. First, the provision that, "The Annuity Reserve Fund shall be the fund into which shall be paid the service annuity due that fiscal year by the state" is incorrect since the state contributions go into the Service Annuity Fund. Second, the provision that "the proceeds received under the provisions of section 79-1547.03" is meaningless, since section 79-1547.03 is repealed by LB 494.

16. In section 22 strike "under the group annuity contract", and insert "under the retirement system".

Rationale: This corrects for the fact that there need not be a group annuity contract.

17. In section 25 insert 79-1536 and 79-1546 in the appropriate places.

Rationale: These sections are amended and were omitted by oversight.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED TWENTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, June 27, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by Rev. Darrel E. Berg, Trinity Methodist Church, Lincoln.

Prayer

O Lord of the World, Help us to see that "In the beginning was the idea, and the idea was with God, and the idea was God. All things were made with the idea, and without the idea, was not anything made that was made. In the idea was life, and the life was the light of men."

We who are called to make decisions for our people ask that our eyes may be opened that we may see the ideas that are around us like the air we breathe. And seeing them, let us waste no time receiving them unto ourselves and making those swift, certain sacrifices which are essential if the excellent is to prevail over the acceptable.

This is our prayer this day in the name of Him who is the way, without whom there is no going, the truth, without whom there is no knowing, and the life, without whom there is no living. Amen.

The roll was called and all members were present except Messrs. Ely, E. Rasmussen and Stryker, who were excused.

ONE HUNDRED TWENTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, June 28, 1967

Pursuant to adjournment, the Legislature met at 4:30 p.m., President Everroad presiding.

Prayer was offered by Rev. Darrel E. Berg.

Prayer

O Lord, our Lord, how excellent is Thy name in all the earth:

We are here on a warm summer afternoon in a centennial year, with a special sense of gratitude that we have had such courageous fathers. We who have come along later have only had to consolidate the gains they fought so hard to make. They were hunters so that we can be farmers. Since we are called to be farmers, make us good stewards of the soil. Let not this land be leeched, or bleached, or soured or strained by our greed or ingratitude. Rather, let each layer of this good earth be equipped for its supreme task, namely the sustaining of the most precious thing in the universe, human life.

Forbid that we should allow the love of this vast and verdant land to be confined to ourselves. Forbid that we who are situated on such soil should covet for ourselves any other spot. Forbid that we who bask in the brightness of the sun should be so careless as to let our cities be shrouded in smog. Rather let the vastness of these plains teach us to include all men in our compassion, and let their richness save us from that envy which is the basis of bloodshed, and let our minds be as clear and clean as the living air and the blue sky which even now forms an envelope around us.

These are our prayers this day, and they are made in the spirit of Him who loves all men with an everlasting love. Amen.

The roll was called and all members were present except Messrs. Bloom, Carstens, Danner, Ely, Klaver, Pedersen, Stryker and Syas, who were excused.

The monthly payments shall be payable at the end of each calendar month during the life of a retired member. The first payment shall include all amounts accrued since the effec-

tive date of the award of annuity, including a pro rata portion of the monthly amount of any fraction of a month elapsing between the effective date of such annuity and the end of the calendar month in which such annuity began. The last payment shall be at the end of the calendar month in which such member shall die;

(23) Service annuity shall mean payments for life, made in equal monthly installments, derived from appropriations made by the State of Nebraska to the retirement system;

(24) State deposit shall mean the deposit made by the state in the retirement system on behalf of any member;

(25) State school official shall mean the Commissioner of Education and his professional staff and the assistant commissioner of education in charge of vocational education and his professional staff;

(26) School employee shall mean any employee of a public school whose services are engaged for at least half-time employment on an annual or continuing contract basis;

(27) Savings annuity shall mean payments for life, made in equal monthly payments, derived from the accumulated contributions of a member;

(28) Emeritus member shall mean a person who has entered retirement under the provisions of sections 79-1501 to 79-1553, including those persons who have retired since July 1, 1945, under any other regularly established retirement or pension system as contemplated by section 79-1512, and who has thereafter been reemployed in any capacity by a public school in Nebraska, or has become a state school official or county school official subsequent to such retirement, and who has applied to the board for emeritus membership in the retirement system. The school district or agency shall certify to the retirement board on forms prescribed by the retirement board that the annuitant was reemployed, rendered a service and was paid by the district for such services; and

(29) Primary carrier shall mean the life insurance company or trust company designated by the retirement board as the underwriter or trustee of the retirement system.

Section 2. That section 79-1503, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1503. The general administration of the school retirement system of the State of Nebraska is hereby vested in the Board of Educational Lands and Funds. The board shall, by a majority vote of its members, adopt by-laws and establish rules and regulations, from time to time, not inconsistent with the provisions of sections 79-1501 to 79-1553, for the administration and transaction of the business of the retirement system, and shall perform such other duties as may be required to execute the provisions of sections 79-1501 to 79-1553.

Section 3. It shall be the duty of the Board:

(1) To select, on the basis of the most sound proposal or proposals received, after written notice of such proposition to all domestic companies, one or more life insurance companies, banks or trust companies authorized to do business in Nebraska to underwrite or trustee the retirement system, and to enter into a contract or contracts with such company or companies in the name of the retirement system; Provided, that if a bank or trust company is chosen as the primary carrier that the funds shall be invested according to the same rules and regulations imposed on the State Investment Council as specified by statute.

(2) To change underwriters or trustees if, in the judgment of the board, such action should be desirable; Provided, that the board shall give thirty days' notice in writing to the company whose contract is proposed to be canceled and, if such company makes demand therefor before such time has expired, a public hearing shall be held to determine the reasonableness of the proposed cancellation;

(3) To determine the eligibility of an individual to be a member of the retirement

system and other questions of fact in the event of dispute between an individual and a department;

(4) To adopt rules and regulations for the management of the board;

(5) To keep a complete record of all proceedings taken at any meeting of the board; and

(6) To employ such actuarial and other assistance as may be necessary in the performance of its duties.

Section 4. That section 79-1508, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1508. It shall be the duty of the Director of Insurance to make an annual audit of the school retirement system and a biennial report to the Legislature of its condition on an actuarial basis. The Department of Insurance shall be compensated for preparing the annual audit on the same basis as the Department would be compensated for examining an insurance company. Payment shall be made to the Department from the Annuity Reserve Fund.

Section 5. That section 79-1520, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1520. Any member may retire upon his written application to the retirement board setting forth the date, not less than thirty days nor more than ninety days subsequent to the execution and filing thereof; he desires to be retired; Provided, that such member at the time so specified shall have completed thirty-five years of creditable service.

Section 6. That section 79-1522, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1522. (1) Upon retirement under the provisions of sections 79-1520 and 79-1521, if he has five or more years of creditable service, a member or emeritus member shall receive a school retirement allowance which shall consist of the sum of: (a) A savings annuity which shall be the actuarial equivalent, as determined by the retirement board, of the member's accumulated contributions at the time of his retirement, or, in the case of an emeritus member, the savings annuity fixed by the retirement board at the time of his original retirement; and

(b) a service annuity to be paid by the State of Nebraska. The amount of any individual service annuity for a full time school employee or emeritus member shall be one and one-half dollars per month for each year of service prior to July 1, 1967, except that the amount of any individual service annuity for a full time school employee or emeritus member who retired prior to January 1, 1965, and not eligible for Social Security benefits, shall be two dollars and twenty-five cents per month for each year of service; Provided, that no such payments shall be made unless application is made therefor by the person entitled thereto and such application shall carry the verified statement that the applicant is not receiving Social Security benefits. The amount of any individual service annuity for a full-time school employee shall be three dollars per month for each year of service thereafter.

(2) Under such rules and regulations as the board may prescribe, an employee, upon becoming a member, may receive credit for not to exceed ten years of creditable teaching service rendered in public schools in another state if such member shall have paid into the school retirement system of the State of Nebraska an amount equal to the required deposits he would have paid had he been employed in this state; such required deposits to be paid as the board may direct within three years after membership in the retirement system begins.

(3) A member who retires as a school employee of this state shall not receive credit for time in service outside of this state in excess of the time he has been in service as a school employee in this state. In order to receive such out of state credit such member must be

employed as a school employee in this state at the time of his retirement.

(4) For an annuitant who is employed as a public school employee for more than ninety days in any school year the state service annuity shall be reduced by fifty per cent; Provided, a person receiving a retirement benefit may waive the payments and return to regular employment in a public school of this state if the annuitant shall notify the retirement board in advance of the time and place of such employment. This notice shall be in writing upon forms prescribed by the retirement board. Any person collecting retirement payments without filing such notice shall be subject to a withholding of future retirement benefits equal to twice the amount collected after being regularly employed. The amount of individual service annuity for a part-time employee shall be determined on a proportional basis.

Section 7. In lieu of the school retirement allowance provided by section 79-1522 for service after July 1, 1968, any member who is an employee of a Class I, II, III, IV or VI school district and who becomes eligible to make application for and receive a school retirement allowance under the provisions of sections 79-1520 and 79-1521, may elect to receive a formula annuity retirement allowance.

The monthly formula annuity in the normal form shall be determined by multiplying the number of years of service after July 1, 1968, for which such member would otherwise receive the service annuity provided by section 79-1522, by the sum of one-half of one per cent of his final average compensation; Provided, that if the annuity begins prior to the sixty-fifth birthday of the member, the annuity at the date it begins shall be the actuarial equivalent of the formula annuity deferred to the sixty-fifth birthday of the member.

The normal form of the formula annuity shall be an annuity payable monthly during the remainder of the member's life with the provision that in the event of his death before sixty monthly payments have been made the monthly payments shall be continued to his estate or to such beneficiary as he shall have designated until sixty monthly payments have been made. A member may elect to receive in lieu of the normal form of annuity an actuarially equivalent annuity in any optional form provided by section 79-1530.

Final average compensation shall be determined by dividing the member's total compensation subject to required deposits for the ten fiscal years after July 1, 1968, in which such compensation was the highest, by one hundred twenty. If a member has such compensation for less than ten such fiscal years his final average compensation shall be determined by dividing his total compensation in all such years by twelve times the total number of years of his service therefor.

All formula annuities shall be paid from the Annuity Reserve Fund. Upon the granting of a formula annuity there shall be transferred to the Annuity Reserve Fund: (1) from the Service Annuity Fund the value of the service annuity which would otherwise be payable for service after July 1, 1968; (2) from the School Employees' Savings Fund the accumulated contributions of the member made after July 1, 1968; and (3) from the School Employer's Deposit Fund the value of the formula annuity in excess of the amounts transferred from the Service Annuity Fund and the School Employees' Savings Fund.

For the purpose of providing the funds to be transferred from the School Employer's Fund for formula annuities every employer shall be required to make deposits in the School Employer's Deposit Fund. Such deposits shall be a uniform percentage of the required contributions of the school employees of each employer and shall be transmitted to the retirement board at the same time and in the same manner as such required employee contributions. In the fiscal year commencing July 1, 1968, such uniform percentage shall be forty per cent of the required school employee contributions. For each fiscal year thereafter such uniform percentage will be determined by the retirement board upon recommendation of the actuary and shall be determined by deducting from the then present value of all future amounts to be transferred from the School Employer's Deposit Fund the amount then credited to such fund and dividing the remainder by the present value of the prospective future required contributions of all employees of the school districts covered by this section.

Section 8. That section 79-1530, Reissue Revised Statutes of Nebraska, 1943, be stricken and the following is inserted in lieu thereof:

79-1530. At any time before the retirement date a member may elect to receive his school retirement allowance or his disability retirement allowance under any optional form specified in the group annuity contract, if one exists, or under any optional form permitted by the retirement board, if no group annuity contract exists. Such optional annuity shall be the actuarial equivalent to the normal straight life annuity.

Section 9. That section 79-1531, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1531. Each member of the retirement system shall be required to make a deposit in the School Employees' Savings Fund equal to three and one-half per cent of all compensation. All amounts deposited by or on behalf of any school employee shall be held for the benefit of the individual school employee in the School Employees' Savings Fund and shall be credited to his account in this fund for the purpose of providing an annuity or other benefit as provided in sections 79-1501 to 79-1553, except for the proportionate share of administration expense that shall be deducted from each member's account in the School Employees' Savings Fund, at the beginning of each fiscal year.

Section 10. That section 79-1532, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1532. On June 30 of each year the retirement board shall credit the account of each member in the School Employees' Savings Fund with interest at the rate determined by the primary carrier.

Section 11. That section 79-1533, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1533. Every employer shall deduct and withhold from the compensation as a school employee of each member on each and every payroll period after such school employee becomes a member of the retirement system three and one-half per cent of such compensation of such member. The employer, through its proper agents, the city or county superintendent, or secretary of the school board or board of education, shall transmit monthly, quarterly, or semiannually if the retirement board shall so direct, a copy of such payroll, in such form as shall be approved by the retirement board, and a remittance payable to the order of the State Treasurer for all deductions from the compensation of members on such payroll. The remittances may be by draft, money order or check or otherwise according to the rule adopted by the retirement board. All such amounts due to the retirement board shall bear interest at the rate of six per cent per annum if the payment of the same is delayed more than thirty days after the time prescribed for payment thereof. The proceeds of said interest charge shall be used to reimburse the account of each school employee, deprived of interest by said delay, with regular interest and the balance shall be paid into the guarantee fund of the retirement system.

Section 12. That section 79-1536, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1536. Every employer and school employee shall send to the retirement board, upon its request and in the manner required by it, such information as the board may require (1) for the identification of school employees, and (2) for the determination of the membership of the system and the obligations of the employer and school employee to the retirement system; Provided, if an employee, qualified for membership, fails or refuses to file, within the fiscal year, in complete form, a membership registration blank properly identifying the member, a sum not to exceed ten dollars shall be transferred from such employee's individual account in the School Employees' Savings Fund to the Annuity Reserve Fund.

Section 13. That section 79-1545, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1545. All assets of the retirement system shall be credited, according to the purpose for which they are held, to one of four funds, namely, the School Employee's Savings Fund, the School Employer's Deposit Fund, the Service Annuity Fund, and the Annuity Reserve Fund.

Section 14. The School Employer's Deposit Fund shall be the fund in which the required deposits of the employers shall be accumulated. Upon the granting of a formula annuity there shall be transferred from this fund to the Annuity Reserve Fund the amounts provided by section 7 of this act.

Section 15. The Service Annuity Fund shall be the fund in which the required deposits of the state shall be accumulated. Upon the granting of an annuity there shall be transferred from this fund to the Annuity Reserve Fund the amount provided by section 7 of this act plus the value of any additional service annuity.

Not later than January 1 of each year the State Treasurer shall transfer to the Annuity Reserve Fund the amount certified by the retirement board as being necessary to maintain assets in such fund as of the previous June 30 equal to the following percentages of the present value of all future payments of benefits from such fund, namely, the actual percentage of such assets to such present value at June 30, 1966, which percentage shall be increased by 3% for each full year elapsed since that date but not to exceed 100%.

Section 16. That section 79-1546, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1546. The School Employees' Savings Fund shall be the fund in which the required deposits from the compensation of members to provide savings annuities shall be accumulated. The accumulated contributions of a member, returned to him upon his withdrawal from membership or paid to his estate or designated beneficiary in the event of his death as provided in sections 79-1501 to 79-1553, shall be paid from the School Employees' Savings Fund. Any accumulated contributions forfeited shall be transferred from the School Employees' Savings Fund to the Service Annuity Fund. The accumulated contributions of a member shall be transferred from the School Employees' Savings Fund to the Annuity Reserve Fund in the event of his retirement on a school retirement allowance or a disability retirement allowance.

Section 17. That section 79-1548, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1548. The Annuity Reserve Fund shall be the fund into which shall be transferred upon a retirement the accumulated contributions from the School Employees' Savings Fund, the value of any state servie annuity from the Service Annuity Fund, and the value, if any, of a contribution from the School Employers' Savings Fund upon the granting of a formula annuity and from which shall be paid all savings annuities, service annuities, and formula annuities as provided in sections 79-1501 to 79-1553. Should a beneficiary, retired on account of disability, be restored to active service his remaining annuity reserve shall be transferred from the Annuity Reserve Fund to the School Employees' Savings Fund and credited to his individual account therein.

Section 18. All assets now held for the retirement system by the Board of Educational Lands and Funds shall be transferred to the primary carrier within six months of the effective date of this act.

Section 19. All monies received by the State Treasurer and the retirement board for the retirement system shall be transmitted to the primary carrier within thirty-one days of receipt.

Section 20. All benefits under the retirement system shall be paid by the primary carrier as directed by the retirement board.

Section 21. That section 79-1056, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1056. If, at any future time, a majority of the eligible members of the system shall vote to be included under an agreement providing old age and survivors insurance under the Social Security Act of the United States, the contributions to be made by the member and the district for membership service, from and after the effective date of the agreement with respect to services performed subsequent to December 31, 1954, shall each be reduced from five to three per cent but not less than three per cent of the member's salary per annum, and the credits for membership service under this system, as provided in section 79-1044, shall thereafter be reduced from one and one-half per cent to nine-tenths of one per cent and not less than nine-tenths of one per cent of salary or wage earned by the member during each fiscal year; Provided, that after September 1, 1963, all employees of the district shall contribute an amount equal to the membership contribution which shall be two and three-fourths per cent of salary covered by old age and survivors insurance, and five per cent above that amount, and the contributions by the district shall be such amount as may be necessary to maintain the solvency of the system including refunds to the general fund provided by section 79-1059, as determined annually by the board upon recommendation of the actuary and the trustees. After such date all employees shall be credited with a membership service annuity which shall be nine-tenths of one per cent of salary or wage covered by old age and survivors insurance, and one and one-half per cent of salary or wages above that amount; and provided further, that the retirement annuities of employees who have not retired prior to September 1, 1963, and who elected under the provisions of section 79-1041 not to become members of the system, shall not be less than they would have been had they remained under any preexisting system to date of retirement. Members of this system having the service qualifications of members of the state school retirement system, as provided by section 79-1515, shall have included in the membership service annuity credit for each successive year the state service annuity provided by sections 79-1522 to 79-1523, but not in excess of one and one-half dollars per month for each year of service. If the state service annuity provided by sections 79-1522 to 79-1523 should exceed one and one-half dollars per month, any excess state service annuity credit shall be paid as an additional membership service annuity credit under this system. Credits under the state school retirement system for service prior to September 1, 1951, shall not be offset against credits for membership service under the school employees' retirement system.

79-1512. At the time of retirement of any employee who serves a public school operating under any other regularly established retirement or pension system, the retirement board shall, upon receipt of a certification from the public school as to the number of years of service upon which the retirement is based, transfer to the funds of the retirement system of which such employee is a member the actuarial value of the service annuity to be paid by the state for the years of service thus certified in the same amount and basis as provided for members of the state retirement system under section 79-1522 and 79-1524. Such employee, in order to qualify for prior service credit toward a service annuity, shall have the same qualifications as members of the school retirement system of the State of Nebraska who became members on or before July 1, 1950, as provided by section 79-1515, but shall not come under the provisions of sections 79-1501 to 79-1553 while so employed except as provided in section 79-1551. Such transfer of actuarial value to the retirement system of which such employee is a member shall be in lieu of the payment of the service annuity to which he would be entitled; Provided, that the monthly payment received by him from such system shall be in the amount not less than the sum of his service annuity and the member's annuity which is the actuarial equivalent of his own contributions accumulated at interest to retirement. The public school which such employee serves shall furnish to the retirement board all information required by the retirement board regarding service records of its employees.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED TWENTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, June 29, 1967

Pursuant to adjournment, the Legislature met at 8:30 a.m., Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

Stop us, O God, for a minute of prayer. Stop our anxious minds from wandering, and our weary spirits from desiring anything but to know Thy will. Let us stand at attention before Thee, and hear what Thou has to say to us. We believe Thou canst tell us not only what to do, but also how to do it. If it needs making up our minds, Thou who didst make our minds can show us how to make them up. If it needs changing our minds, Thou canst work that miracle too. Speak, O Lord, and make us hear, for Jesus' sake. Amen.

In Memorial

The members stood for a moment of silence in memory of Mr. Francis Robinson.

The roll was called and all members were present except Messrs. Ely and Stryker, who were excused and Messrs. Bloom and Danner, excused until 9:15 a.m.

Corrections for the Journal

Page 2705, line 28, delete "were" and insert "was".

Page 2705, line 35, delete "9:00" and insert "8:30".

The Journal for the One Hundred Twenty-second Day was approved as corrected.

Messages from the Governor

June 28, 1967

The President, the Speaker and Members of the Legislature
State Capitol
Lincoln, Nebraska

Senators of the Seventy-Seventh Session:

As you are well aware, the special consultants on highway matters have now submitted two comprehensive reports on different facets of our highway problems—needs and finances. The third scheduled report—on departmental administration—has not yet been submitted.

Before we embark on a comprehensive program of highway development, we should carefully review all that the consultants have recommended in all the reports. Likewise, just as we want the opportunity to review these data, we should give each and every citizen of the state the same opportunity to make his own review.

I am planning therefore, to call a Special Session of the Legislature to consider the entire highway problem sometime this fall or early winter. This will be after the third report has been submitted and reviewed by everyone. During the period between the adjournment of the regular Session and the commencement of the Special Session, I plan to review and discuss the entire problem with citizens in all parts of the state. I hope that Senators from all areas can join with me in these discussions.

At the commencement of the Special Session, I will present a number of bills dealing with all aspects of the highway problem for your consideration.

Since legislation covering the area should not be considered piecemeal, I would respectfully recommend that all bills currently before the Legislature pertaining to highways be deferred until all aspects of the problem are reviewed in the Special Session. Since the Legislature has already disposed of a number of these bills, the ones remaining that I feel should be deferred are LB 629 and LB 941.

Very truly yours,

(Signed) Norbert T. Tiemann
Governor

Prayer

Almighty Father, in the next few days we shall be celebrating the anniversary of the signing of our Declaration of Independence. Since that date when men of courage pledged their lives, their fortunes and their sacred honor to the formation of a new nation dedicated to a resistance of tyranny, millions of people of every land, of every creed and color have come to our shores to devote themselves to the building of a great country. Although we are divided by different origins and different philosophies of government we are united in a common purpose to make this land a beacon of freedom and of opportunity. As public servants charged with the responsibility of representing Americans across the State of Nebraska we ask Thy blessing and wisdom that we may so conduct ourselves that our beloved state and nation will continue to remain free and true to those ideals which have made America the land of the free and the home of the brave. Amen.

The Superintendent shall make recommendations to the commission regarding the rules and regulations necessary for the effective operation of the training center.

Sec. 13. The Superintendent shall be responsible for employment of all employees of the training center.

Sec. 14. The commission may extend the program of the training center throughout the state on a regional basis. The commission shall annually certify all schools, public or private, providing a basic course of law enforcement training which complies with the qualifications and standards promulgated by the commission and offers training comparable to that offered by the training center.

Sec. 15. Except as provided for in sections 16, 17 and 18 of this act, every applicant for admission to the training center must be a law enforcement officer. Expenses incurred for the training of law enforcement officers applying under this section shall be paid by their employers. Prior to admission the applicant must furnish evidence of the following:

(1) That he is a citizen of the United States;

(2) That he is twenty-one years of age or older;

(3) That he has been fingerprinted and a search has been made of local, state and national fingerprint files for disclosure of any criminal record;

(4) That he has not been convicted by any state or by the federal government of a crime punishable by imprisonment in a federal or state penitentiary;

(5) That he possesses good moral character;

(6) That he has graduated from high school or passed the General Education Development test or similar test indicating high school graduation level;

(7) That he has been examined by a licensed physician within one year of date of admission. Only those applicants who are found to be free from any condition which might adversely affect performance of his duty as a law enforcement officer shall be eligible for admission.

Sec. 16. Any person not a law enforcement officer who meets the other requirements of subsections (1) through (7) of section 15 may apply for admission to the training center with approval of Commission. Expenses incurred for the training of persons applying under this section shall be paid by the applicant.

Sec. 17. Any person in the employ of a private business or corporation holding an appointment as a deputy state or county sheriff or any other law enforcement commission who meets the requirements of subsections (1) through (7) of section 15 may apply for admission to the training center. Expenses incurred for the training of persons applying under this section shall be paid by the applicant.

Sec. 18. Any person employed by another state or subdivision thereof in a law enforcement capacity who meets the requirements of subsections (1) through (7) of section 15 may apply for admission to the training center; Provided that his admission will not prevent any person designated in sections 15, 16, or 17 from admission. Expenses incurred for the training of persons applying under this section shall be paid by the applicant.

Sec. 19. The commission shall set the tuition and fees of the training center.

Sec. 20. Upon the request of any sheriff, chief of police, or any other person having an equivalent title who is appointed or employed by the state or a subdivision thereof to exercise supervisory authority, the commission may waive any or all of the requirements of subsections (1) through (7) of section 15 for admission to the training center upon a finding that:

(1) The shortage of individuals meeting the requirements of subsections (1) through (7) of section 15 is such that a failure to waive such requirements will result in an inability of a local government to recruit law enforcement officers;

(2) The pay scale and other working conditions of such local government are commensurate with the pay scale and working conditions of other local governments of comparable size and economic circumstances; and

(3) It is in the public interest to waive such requirements.

Sec. 21. (1) On and after January 1, 1971, law enforcement officers already serving under permanent appointment shall not be required to meet any requirement of subsection (2) of this section as a condition of tenure or continued employment; nor shall failure of any law enforcement officer to fulfill such requirements make him ineligible for any promotional examination for which he is otherwise eligible. The Legislature finds, and it is hereby declared to be the policy of this act, that such law enforcement officers have satisfied such requirements by their experience.

(2) On and after January 1, 1971, no person shall receive appointment as a law enforcement officer unless he has been awarded a certificate by the commission attesting to his satisfactory completion of the minimum cirriculum as established by the commission or has been awarded a certificate attesting to his satisfactory completion of a training program which the commission finds equivalent thereto; Provided, that any person who has not been awarded such a certificate may receive an appointment conditioned on his satisfactory completion of such training within one year from the date of his appointment. If such training is not completed within one year, his employment shall not be renewed by appointment or otherwise.

(3) The commission shall issue a certificate attesting to a compliance with the requirements of subsection (2) of this section to any applicant who presents evidence of satisfactory completion of a program in another jurisdiction found by the commission to be equivalent to that required by the commission for the award of a certificate in this state.

Sec. 22. There is hereby created the Nebraska Police Standards Advisory Council. The council shall consist of the chairman of the commission and five members appointed by the Governor who shall be full-time officers or employees of a law enforcement agency. The members shall be representative of county, city, village, state, and federal law enforcement agencies. The members appointed shall serve for terms of four years each, provided that of the members first appointed, one shall serve for a term of one year, one shall serve for a term of two years and one shall serve for a term of three years from January 1 next succeeding their appointment. No member shall serve beyond the time when he holds the office or employment by reason of which he was initially eligible for appointment. A member of the council may be removed from office by the Governor for cause upon notice and an opportunity to be heard at a public hearing. Any vacancy occuring otherwise than by expiration of the term shall be filled, for the balance of the unexpired term, in the same manner as the original appointment.

Sec. 23. The chairman of the commission shall act as chairman of the council.

Sec. 24. The members of the council shall serve without compensation, but they shall be entitled to receive reimbursement for any actual expenses incurred as a necessary incident to such service.

Sec. 25. The commission shall consult with the council on all matters dealing with the training center. The council shall advise the commission concerning the operation and curricula of the training center and the formulation of training policy and procedures for law enforcement officers.

Sec. 26. If any section in this act or any part of any section shall be declared invalid or unconstitutional, such declaration of invalidity shall not affect the validity of the remaining portions thereof.

Sec. 27. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED TWENTY-FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, July 10, 1967

Pursuant to adjournment, the Legislature met at 1:00 p.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O God, who dost watch over every one of Thy children throughout the world, Thou dost understand how hard it is for these, Thy servants, to keep in mind the thousands of their fellow citizens for whom they must legislate. Thou knowest the clamor of voices in their ears, the constant tugging at their sleeves, forever trying to influence them; the small voices of little men without monies or reputation; the blatant voices of aggressive pressure groups; the big voices of selfish men and those working for personal gain; even the whispering inner voices of personal ambition; those insinuating voices holding out the lure of unmerited reward. Amid all the din of voices, give these Thy servants the willingness to take time to listen to Thy voice, knowing that if they follow the still small voice within, all Thy people will be served fairly, and all groups will get what they deserve. For Jesus' sake. Amen.

The roll was called and all members were present except Messrs. Batchelder and Ely, who were excused.

UNANIMOUS CONSENT—Final Reading

No objections. So ordered.

MOTION—Reconsider Action

Mr. Whitney moved to place LB 356 on Final Reading for reconsideration.

The motion prevailed with 33 ayes, 0 nays and 16 not voting.

UNANIMOUS CONSENT—Return LB 356 to Select File

Mr. Carpenter asked unanimous consent to return LB 356 to Select File for consideration of the following specific amendments:

1. In Section 1, Line 1, strike the word "any" and insert:

> "Corporate trustees authorized by Nebraska law to exercise fiduciary powers and holding retirement or pension funds for the benefit of employees or former employees of cities, villages, school districts, public power districts or other governmental or political subdivisions may invest and reinvest such funds in such securities and investments as are authorized for trustees, guardians, conservators, executors or administrators under the laws of Nebraska. Retirement or pension funds of such cities, villages, districts or subdivisions may be invested in annuities issued by life insurance companies authorized to do business in Nebraska. Any other"

2. In Section 2, Line 6, strike the words "the class of securities and investments described in" and insert the words "accordance with".

3. In Section 3, Line 34, strike the words "the class of securities and investments described in" and insert the words "accordance with".

No objections. So ordered.

UNANIMOUS CONSENT—Print in Journal

Mr. Carpenter asked unanimous consent to have the following statement on LB 356 printed in the Journal. No objections. So ordered.

L. B. 356 was a companion bill to L. B. 355. Both bills were designed to implement the amendment to the Nebraska Constitution approved by the voters in November, 1966, relative to the investment of retirement and pension funds. L. B. 355 dealt with the establishment of a state investment council to handle the centralized investment of such funds for the state and its agencies. L. B. 356 deals with the investment of retirement and pension funds of political subdivisions.

In amending L. B. 355 to specify authorized investment of funds by the new state investment council, the same amendatory provisions were impressed upon L. B. 356 which deals with political subdivisions. The specifications of authorized investments for the single state investment board are not appropriate for all the various political subdivisions of the state which range in size from small villages and school districts to large cities such as Omaha and Lincoln and public power districts having substantial numbers of employees. In order to be workable legislation, L. B. 356 must be broad enough in scope to cover the spectrum of all the various size political subdivisions which exist. For example, a retirement program for Omaha city employees or for any one of our large public power districts should not be confined to the type of administration or investments which would be appropriate for a small public body. In point of fact, there are numerous existing retirement programs for employees of large political subdivisions in Nebraska which would require substantial revamping of investment portfolios to the detriment of public employees if L. B. 356 were allowed to become law in its present form.

As originally introduced, L. B. 356 would have permitted investment of employee retirement or pension funds of political subdivisions in such securities or investments as are authorized for trustees, guardian, conservators, executors or administrators under the laws of Nebraska. The proposed amendment would permit this investment authority only for retirement funds administered by corporate trustees authorized to exercise fiduciary powers under Nebraska law. Thus, only competent, experienced and professional administrators of trusts would be authorized to exercise that latitude of investment authority given by state law to those retirement funds of subdivisions which designate them as the administrators of their employee funds. The proposed amendment provides a second alternative for administration of employee retirement funds by permitting their investment in annuities issued by life insurance companies authorized to do business in Nebraska. Finally, the proposed amendment provides that any retirement funds of political subdivisions not administered by corporate trustees or invested in annuities shall be invested in those classes of securities specified in L. B. 356 as passed by the Legislature.

Accordingly, where there is no professional administration of the employee retirement and pension funds of political subdivisions, the authorized investment of such funds is clearly specified.

It is considered that the proposed amendment to L. B. 356 is in the best interest of all political subdivisions of the state while affording maximum protection and benefits to the public employees for whom such retirement plans are established and administered.

(Signed) Terry Carpenter

RESOLUTIONS

LEGISLATIVE RESOLUTION 79. Re: Nebraska State Patrol Recruiting Program

Introduced by Terry Carpenter, 48th District.

WHEREAS, the Nebraska State Patrol presently employs no troopers of the Negro, Mexican, or Indian races; and

WHEREAS, the Nebraska State Patrol reports the absence of personnel representative of these races results from the lack of applications from persons of these races; and

WHEREAS, the State of Nebraska is on record as opposing segregation among state employees; and

WHEREAS, provision has been made which will enable the Nebraska State Patrol to hire 25 additional patrolmen, and 25 other patrolmen to replace retired personnel during the 1967-69 biennium; and

WHEREAS, only 50 applications have been received to date for these positions, and it is known that a number of these applicants will not qualify for these positions; and

WHEREAS, law enforcement is of supreme importance in the State of Nebraska as it is in every other state; and

WHEREAS, it is anticipated the Nebraska Legislature will recognize the importance of law enforcement through the establishment of special training courses for local law enforcement officers; and

WHEREAS, one of the difficulties in obtaining state troopers stems from the relatively low starting salary of $400 per month.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE, IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That the Nebraska State Patrol immediately initiate a recruiting program to find qualified personnel among persons of the Negro, Indian, and Mexican races to employ as troopers.

2. That through such a recruitment program it will halt the implied segregation of the past and bring about a better understanding and working relationship among all the peoples of Nebraska.

3. That the Nebraska State Patrol adopt a wage policy which will assure a starting salary of not less than $500 per month for troopers when they have completed their training period, which can be accomplished by paying straight overtime pay above the state work week of 40 hours and the actual work week of 50 hours.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED TWENTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, July 11, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

We confess O Lord, that we think too much of ourselves, for ourselves, and about ourselves, and often our voting record reflects what we feel would personally be best for us rather than what we conceive to be the best for the majority of us. This morning help us to contemplate the meaning of the Golden Rule: "Do unto others as you would have others do unto you." If the great men whom we honor for their part in building our state and nation had thought about themselves first, we would have no free republic today. Help us to see that the letter I is in the middle of sin, and let no man among us think more highly of himself than he ought to think, but help us to walk in the ways of justice, equality, integrity, which Thou hast set before us, to the end that we may be used to Thee in Thy service for the good of all men. Through Christ our Lord. Amen.

The roll was called and all members were present except Mr. Batchelder, who was excused and Mr. E. Rasmussen, who was excused until 9:20 a.m.

WHEREAS, the Legislature by law has given the State Board of Equalization the power to increase or decrease the assessed valuation of property in any county or tax district; and

WHEREAS, the Legislature has enacted state sales and income taxes thereby, under the Constitution, removing the state from the property tax field but has not changed the powers of the State Board of Equalization with regard to equalization of assessed valuations; and

WHEREAS, there are many governmental subdivisions and taxing districts located in more than one county; and

WHEREAS, equalization of assessed valuations between counties is essential for the protection of taxpayers owning property in taxing districts located in more than one county; and

WHEREAS, no agency other than the State Board of Equalization has the power to provide this protection.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That the Legislature finds that it is essential for the effective administration of a system of taxation that is fair to all taxpayers for the State Board of Equalization to exercise the powers it has been granted to equalize property valuations between counties.

2. That the Legislature urges the State Board of Equalization to exercise fully all powers it has been granted to equalize property valuations between counties.

3. That copies of this resolution be delivered by the Clerk of the Legislature to each member of the State Board of Equalization.

LEGISLATIVE RESOLUTION 81. Re: Federal Firearms Legislation

Introduced by George Syas, 13th District and Herb Nore, 22nd District.

WHEREAS, antifirearms legislation now being considered by the Congress, if adopted will seriously impair the right of legitimate hunters and target shooters to enjoy their chosen sports; and

WHEREAS, the history of such legislation is that the criminal and psychotic elements are little affected thereby; and

WHEREAS, the second amendment to the United States Constitution sets forth the rights of citizens who have not lost their civil rights to keep and bear arms; and

WHEREAS, tight controls on firearms as attempted in New York and Puerto Rico have not deterred the criminal classes but have only served to disarm the law-abiding citizen; and

WHEREAS, certain Federal officials have indicated a desire to register and control all privately-owned firearms in a manner similar to New York's infamous Sullivan Law; and

WHEREAS, a situation in which our law-abiding citizens would become effectively disarmed by firearms registration or by administrative action of governmental bureaus or by the necessity of complying with complicated and obtuse administrative procedure would be intolerable in these United States; and

WHEREAS, control of crime and misuse of firearms is best accomplished by a combination of effective and stringent law enforcement and justice directed against the criminal himself, not the weapon, coupled with education and alleviation of the known factors that cause crime; and

WHEREAS, no nation in modern times has fallen to tyranny without first imposing upon itself a strict system of firearms controls and registration.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That this body, (a) is opposed to federal legislation which interferes with the rights of our law-abiding citizens under the second amendment to the United States Constitution or which interferes with the rights of such citizens to transport, ship or receive sporting arms and ammunition in interstate commerce, (b) favors enforceable legislation at the federal level which provides stringent and enforceable penalties against the criminal misuse of firearms and ammunition shipped in interstate commerce, (c) is opposed to the federal registration of firearms or legislation whose thrust is in the direction of firearms registration.

2. The Legislature directs the Clerk of the Legislature to furnish suitable copies thereof to the President of the United States, the President pro tempore of the United States Senate, the Speaker of the United States House of Representatives, to the chairman of the Senate Judiciary Committee, to the Nebraska congressional delegation, and to Senator Thomas Dodd, of Connecticut.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED TWENTY-SEVENTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, July 12, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by Rev. Laurence A. Brown, Jr., of the First Presbyterian Church, Lincoln.

Prayer

Eternal God our Father, before we become absorbed in the affairs of this day, we would turn our hearts and our minds to Thee, seeking Thy guidance and Thy wisdom in all we undertake. As this body moves toward the conclusion of the current Session, we would especially ask Thy help in assisting its members to leave no stone unturned in acting upon all matters of importance affecting this State and its people. Give to the members of this legislature the courage to act according to conscience in the face of adverse reaction, and to put civic duty always above personal gain. Grant to the people of this state the wisdom to trust the good faith of those elected to represent them and the good judgment to support them in their labors. Make us ever aware that we all stand under Thy authority and judgment and that our greatest freedom is that found in serving Thee. This we pray in Jesus' name. Amen.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED TWENTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, July 13, 1967

Pursuant to adjournment, the Legislature met at 9:00 am., Speaker Adamson presiding.

Prayer was offered by Rev. Laurence A. Brown, Jr.

Prayer

O Lord our God, Who knowest our secret thoughts and our hidden fears, and before Whom all our pretenses melt away; grant us this day freedom from the sham of hypocrisy and deliverance from the poverty of spirit which breeds inaction and delay. Keep us true to our high calling and our best selves, guarding us against dishonor in purpose or in deed.

When we are afraid, grant us Thy courage; When weak—Thy strength; When in doubt—Thy wisdom; When disgruntled—Thy patience; When unmoved by human need—Thy compassion. And in all things keep before us the awareness of Thy overshadowing love for all people, great or small, and make it our resolve to manifest such love to each other and to all those whom we serve.

Bless, we pray O Lord, the President of our nation, the Governor of this state and those who serve with him in executive capacity, and the honorable members of this legislature. Grant to all wisdom commensurate with responsibility and the satisfaction that comes in having served faithfully in their duties.

These things we pray in Jesus' name. AMEN

NOW, THEREFORE, BE IT RESOLVED BY MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

2. That such committee shall make a complete report of its study to the next regular session of the Legislature, such report to include a determination as to whether there is a need for greater coordination of higher education and, if such a need is found to exist, its specific recommendations on a method of providing this coordination.

Monday, July 17, 1967

Pursuant to adjournment, the Legislature met at 3:00 p.m., Speaker Adamson presiding.

Prayer was offered by the Chaplain.

Prayer

Our gracious Father, we have been discovering that troubles are like cannibals—the big ones eat up the little ones. But may it not be so with our duties and responsibilities. Help our Senators to keep a sane perspective, lest the big issues overshadow the lesser ones, and we fail to do Thy will with them. In all things, big and little, reveal to us Thy wisdom and Thy love, that we may give careful attention to those things remaining before us. Through Christ our Lord. Amen.

WHEREAS, persons of all faiths have made plans for providing such a chapel and meeting hall, to be constructed without cost to the State of Nebraska, and the location and plans for such building shall be subject to the approval and supervision of the Director of Public Institutions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS

OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That such chapel and meeting hall, upon the terms and conditions above set out, be and is hereby approved and its acceptance by the Director of Public Institutions is hereby authorized.

LEGISLATIVE RESOLUTION 86. Re: Legislation Requiring Meat Packers to Post Bond for Purchases of Livestock for Slaughter

Introduced by Jerome Warner, 25th District; William M. Wylie, 40th District; Leslie Robinson, 36th District; Eric Rasmussen, 32nd District; Harold B. Stryker, 23rd District; Arnold Ruhnke, 31st District and Richard L. Ely, 37th District.

WHEREAS, the financial protection provided by the present Packers and Stockyards Act of 1921, against the financial failure of packers is nonexistent. Since packers are not required to be registered under such act, there is no authority to suspend them from engaging in business while in a financially weak position. As long as they are not delinquent in paying for livestock purchased, no action can be taken. In addition, even if they are delinquent in paying for livestock, the only action which can be taken is to obtain a cease and desist order. This involves an elapse of time which can be fatal to sellers of livestock. The Packers and Stockyards Act of 1921, as originally passed, did not specifically authorize the Secretary of Agriculture to require bonds to secure payment for livestock. Many market agencies do require that packers be bonded in order to buy livestock at their market. However, this does not cover the many country buyers and smaller packers that are springing up all over the country; and

WHEREAS, the financial performance of packers during recent years, and the conditions which now exist in the livestock and meat industry, give evidence to the urgency of requiring bonds from all persons engaged in buying livestock for slaughter. The substantial increase in direct negotiation and settlement between packers and feeders makes it paramount to require the same assurance of payment as is required for market dealers and agents. During the early years of the Packers and Stockyards Act of 1921, packers bought over ninety per cent of their cattle, close to eighty per cent of their sheep and lambs at terminal markets where the services of protection of a selling agent were involved. Constrast this to 1965, the most recent year for which complete statistics are available: One thousand three hundred forty-nine packers functioning as slaughterers obtained forty-five and one-tenth per cent of their cattle, sixty-two and nine-tenths per cent of their hogs, and sixty-two and four-tenths per cent of their sheep and lambs other than at terminal and auction public markets. The upsurge of packing plants being built in the areas of feeding will tend to amplify the need for payment assurance, because such circumstances will further encourage direct sales; and

WHEREAS, producers in the heavily concentrated feeding areas now deal with a large number of packers scattered over a wide area, many of whom buy a long distance from plant location. The large number involved and the far-flung points of operation make it impossible, from a practical standpoint, for livestock feeders to do a thorough job of investigation or to keep current on the financial condition of each and every packer who may purchase their livestock; and

WHEREAS, livestock loses its identity as far as the individual producer is concerned, once title passes to the packer. With respect to product movement, it is not unusual for a packer to purchase livestock in the morning, slaughter it that day, and move it out of his coolers the next day. These industry practices make it extremely difficult, and in most instances impossible, to recover the product if payment is not received; and

WHEREAS, as a general rule, the packing industry is under capitalized. Approximately one thousand five hundred slaughterers file reports with the Packers and Stockyards Division. This includes those handling in excess of one thousand head of cattle or two thousand head of total livestock annually. According to the data submitted for the year 1965, of the one thousand five hundred packers reporting, one hundred thirty-two, nine per cent of the total number of packers, had current liabilities in excess of current assets. Included, were thirty whose total liabilities exceeded their total assets (deficient of their net worth). Twelve other slaughterers, whose current liabilities did not exceed current assets, also had total liabilities exceeding total assets. In other words, one hundred and forty-four slaughterers of the total of one thousand five hundred, nearly ten per cent, had either current liabilities exceeding current assets or total liabilities exceeding total assets, or both. Under such financial circumstances, there can be no sound argument in favor of exempting packers from the bonding provisions to assure payment for livestock purchased; and

WHEREAS, the Packers and Stockyards Division has received information that seventy-six packers closed their businesses owing nine and four-tenths million dollars for livestock from January 1958 to November 1966. Ten of these packers closed from November 1965 to November 1966 owing about three and twenty-five-hundredths million for livestock. What payments, if any were later made is not known. These substantial defaults clearly show the need for protecting producers from packers' failure to pay for livestock; and

WHEREAS, in 1962, the Packers and Stockyards Division reported that forty-five slaughterers were operating with net fixed assets of less than ten thousand dollars. Reports for the year of 1965 showed an increase in this figure to one hundred twenty or eight per cent of those reporting. Also, two hundred forty-five, including the one hundred twenty, reported net fixed assets of less than twenty thousand dollars. The term net, as used here, refers to original cost less depreciation. Since fixed assets include automobiles, trucks, machinery and the like, it can readily be seen that the value of these assets available for payment to creditors would be meager indeed in case the packer became insolvent; and

WHEREAS, a number of states have recognized the need for requiring bonds of meat packers who purchase livestock direct from producers, and thirteen states now require such bonding. Also, there are twenty livestock exchanges and other sellers or industry organizations who require bonds of at least certain packers, and further, the packers are the only purchasers of livestock that are not now required to be bonded; and

WHEREAS, the Legislature of the State of Nebraska is concerned about such financial protection afforded sellers of livestock to meat packing firms.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That this Legislature urge the United States federal government to enact legislation requiring meat packers to post bond for purchases of livestock for slaughter. This Legislature feels this should be done on a national basis in order to insure complete interstate protection and jurisdiction to the livestock producing industry.

2. That copies of this resolution be sent to all members in Congress from Nebraska.

LEGISLATIVE RESOLUTION 87. Re: Commending Omaha Public Power District and Consumers Public Power District

Introduced by Committee on Public Works, C. W. Holmquist, 16th District, Chairman; Albert A. Kjar, 39th District; Arnold Ruhnke, 31st District; Rudolf C. Kokes, 41st District and Elmer Wallwey, 17th District.

WHEREAS, public power districts in Nebraska are planning construction of two new large electric generating plants which will use nuclear power to provide low cost electricity for Nebraska; and

WHEREAS, one such plant will be primarily for the benefit of the area of Omaha Public Power District which is building that plant, and the other plant will be for the benefit of substantially all of the remaining area of the state where Consumers Public Power District operates; and

WHEREAS, both Omaha Public Power District and Consumers Public Power District are also planning the construction of Extra High Voltage 345-KV Transmission Facilities to market the output and support the new large generating plants; and

Sermon delivered at Mt. Olive, Norfolk, Nebraska, July 2, 1967
An American Dream—2 Chronicles 7.14

What does the coming holiday mean to you? When a dentist friend of mine asked his young patients this question before the 4th of July, he was amazed that only one in ten thought of anything beyond the firecrackers. At this time it seems appropriate that we Christians ask ourselves that same question.

Our U. S. are facing crises at home and abroad as never before. Present world events force us to rediscover what makes America different from other nations. What makes our nation the hope of a world weary of war, heartsick with human inequalities and hungry? What is America to you? This is a personal question, if we are totally honest. What does it mean that you live in the U.S.A. and not in another country? A color TV; 3 cars in the garage; home-made apple pie at family reunions; the industrious sounds of free enterprise; the privilege to follow one's convictions religiously, politically and economically? In the answers you give we find the fiber of our American dream.

When we ask the soldiers what they are fighting for, what they think of America, their answers are tied up in lofty ideals, a bundle of concepts and within moral principles—nothing concrete—what we call the American dream. In our history this dream has been bright at times, but it has also grown dim at other times.

What is it that makes our country different? Do you know, you who faced enemy fire on land, at sea or in the air? Do you know, you who waited in loneliness for loved ones to return? Do you know, you who read in books about the patriots, purposes and promises of America? When your answer is made, let Christianity influence your citizenship.

One difference between American and other countries is found in what we have to give to the rest of the world. However, if it is only grain, arms, education, entertainment, politics and jobs, then the struggle for ideal and practical leadership is lost. But more is lost—our souls, for America is a covenant nation. We are the only surviving nation which was founded "to the glory of God and the advancement of the Christian faith." For this purpose the Commonwealth of Massachusetts was established by Bradford and Carver. They came from the old—the oppression, fear, coercion and wars—the old world, to the new world for a new life. They sought religious liberty, freedom to worship God according to one's convictions, and equal opportunity for all. These two principles supported their American dreams. Do they still support our American dream?

Being a covenant nation, America is party to an agreement. As the Declaration of Independence states the first party to this agreement, God, is the source of all human rights. Do we still recognize our dependence upon God?

As the second party of the agreement, we the nation, have a responsibility to God. To demonstrate the righteousness of God in national and international policy is another way to speak about the purpose of a nation founded to the glory of God. That is what our Founding Fathers sought. Besides Bradford and Carver, there were Roger Williams in Rhode Island; William Penn in Pennsylvania; Thomas Jefferson as he wrote the Declaration of Independence. They also fought to preserve the rights of free men. Millions of Americans have—from Lexington on to Iwo Jima, Korea and Vietnam. The American dream has shown brightly.

Today, as in certain moments of the past, The American dream seems to have faded. There seems to be real danger that this dream may soon become forgotten. Peter Marshall referred to the heart of the problem as it involves freedom:

"For freedom is not the right to do as one pleases, but the opportunity to do what is right. Our founding fathers sought freedom. . . not from the law but freedom in the law; not freedom from government but freedom in government; not freedom from speech but freedom in speech; not freedom from the press but freedom in the press; not freedom from religion but freedom in religion." Let us think on these things earnestly.

Our American dream is fading—look at our confused standard of values. Compare the average teacher's salary with the average major league baseball, football or basketball player's salary. The Norfolk Daily News recently reported that an entertainer had signed a new contract calling for a personal salary of $5,000,000 per year. These days there are greater rewards for getting people to laugh than there are for getting them to think.

Our American dream is fading when lobbyists, those who try to influence legislation, receive greater financial reward than those who write it. As a nation we feel little obligation to keep laws we don't like or that cramp our personal style of living. What do you do, for example, with a speed limit when you are alone on the street or road and in a hurry? The test of a law should be its morality and justice, not its popularity. We need more law observance, not law enforcement among us.

Government is within easy reach of self seeking lovers of power when citizens let others do the voting, studying of community problems and meeting community needs. There are situations that should challenge all citizens to put forth the extra effort needed to make this a "government of the people, by the people and for the people" once again. Our American dream fades as we misuse our nation's resources. Plantation owners plowed and planted the land into exhaustion, then moved on west to exploit new land. Feeling no responsibility for conservation of natural resources is an abuse of freedom. Some wild life once plentiful is now scarce because of the ignorant selfishness of so called sportsmen. Will the American dream be forgotten? The answer to that is up to each of us.

Now don't take me wrong. There are so many things right about America—so many things worth fighting for—so many wonderful things. But let us be honest about things that are wrong and set out to remedy them. Living in America means privileges, but it also means responsibilities. If we neglect the responsibilities we can lose our privileges.

So then, we are faced with the greatest freedom of all; the freedom to ignore our heritage, to ignore what others have died to give us. However, in exercising this freedom how long will we have the right to vote, the right to worship God or the right to the open Bible? We are free to ignore the liberty of our heritage, is there any greater freedom than that? Religious liberty is first among the Bill of Rights. Other liberties are based upon this essential freedom. Other liberties crumble eventually when religious freedom is lost or abused. Even this liberty is now in danger. The Supreme Court has declared that it is unconstitutional to teach that our nation was founded "to the glory of God and for the advancement of the Christian faith." Prayers, Bible reading and references to God are to be omitted from the curriculum. As a result we are in danger of rearing a generation of children and youth who are without religious training of any kind. An estimated 30 million Americans are unaware that their souls, made in the image of God, are immortal. The church must teach as never before. But let the church call upon the people to look to God, cause the democracy to return to God and be blessed. Our coins proclaim "In God we trust." Unless this is hypocrisy it means that we seek to make our ways His ways. Practically we will look for government by principle not politics.

Then there will be peace which is the fruit of righteousness. There is no lasting peace by force, political expediency or compromise. The Bible is God's formula: Righteousness, then peace.

Even this peace is costly. Devotion to right, sacrifice, suffering and faith in God—those things which cannot be purchased—are the price of peace.

America has the potential for continued world leadership. But we have not given enough of what makes America different and unique. This does not mean more aid in money or bombs. We need to export more of our philosophy of life. Our concept of human dignity, our faith in God, our American dream. Do we really have a choice in the matter? We have found out that a denial of freedom in Warsaw, Seoul or Saigon means a restriction of liberty in Boston, San Francisco and Norfolk.

As Christians we ought to ask why God has preserved and directed our nation as graciously as He has. Has He preserved us so that we might be a blessing to the world? The privilege of His guidance and protection that we have enjoyed mean responsibilities and opportunities for us all. During the coming week seek to practice righteousness, His ways more than you have in the past. For we cannot fool God about national or personal righteousness. What will you do that will make this a better country in which to live, for which to die? ? ?

God's word for America today is our text:

> "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."
>
> 2 Chronicles 7:14.

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED THIRTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, July 19, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Adamson presiding.

Prayer was offered by Chaplain Palmer's father.

Prayer

O God, our Father, in whom is our trust, Thou alone dost know the end and the beginning, and we, Thy servants, strive to walk by faith. We are anxious about the consequences of what we say and do here. May that concern restrain us in our private lives as it does in our public responsibilities. In our troubled minds there is confusion and honest perplexity. But we know there is no confusion with Thee. Wilt thou guide us, that we may do what is right; and if we suffer for it, we shall be blest. This we ask in Christ's name, who suffered, having done nothing amiss. Amen.

The roll was called and all members were present except Messrs. Carpenter, Kremer and Pedersen who were excused.

UNANIMOUS CONSENT—Print in Journal

Mr. Wylie asked unanimous consent to have the following letter printed in the Journal. No objections. So ordered.

Atkinson, Nebraska
July 12, 1967

Senator William Wylie
State Capitol Building
Lincoln, Nebraska

Dear Senator Wylie:

We wish to call your attention to the Legislative Journal, One Hundred-Sixteenth Day, June 20, 1967, Page 2522, under the heading "Unanimous Consent".

We were quite surprised to find the letter placed in the daily record of business of our Nebraska State Legislature.

Our concern is to place before the Legislature and the public more of the facts which certainly brought about the writing of such a letter and point out to you the obvious dangers to constitutional principles if the writer's expressed convictions were promoted and permitted to be the law of this State.

We would like to point out a few of the facts which undoubtedly led up to the letter referred to in the Journal. We call your attention to the Atkinson Graphic, January 29, 1965, which carried maps and information of a proposed Class VI School District, involving an area of some 20 miles wide and approximately 50 miles long. This information alone should tell you why this particular type of District was proposed. There were 32 Class I Districts involved and the majority of these would not have considered voluntarily giving up their elementary Districts. Those involved realized the need for improvement in education within this area, but they also realized the limitations in achieving all one might desire.

The Class VI District was voted into existence on August 16, 1965 by a vote of 434 to 355 against much heated opposition. After the organization of the Class VI District there were three different approaches submitted to the people of Atkinson, Nebraska, a Class III District No. 21, dating from December 30, 1965 to April 4, 1967 to attempt a merger, these being: (1) Using a legally called public meeting to vote on a merger proposal; (2) A legally drawn petition circulated to effect the merger; and (3) Place the issue on the ballot at the spring election.

On December 30, 1965 at the legally called public meeting the vote was 191 for the merger and 36 against. The Atkinson Graphic informed the public that the petitions circulated to effect a merger carried overwhelmingly with over 500 signatures and circulators reporting that very few patrons refused to sign.

On April 4, 1967 the proposal was placed on the ballot with 266 persons voting to effect the merger and 69 against.

No pencil work is necessary for one to see what the majority of the people in Atkinson wanted.

There is no doubt in anyone's mind today whether the town of Atkinson was for or against the Class VI District. The writer of the letter in the Journal was the most prominent in opposing the Class VI District and the merger of District No. 21 with District No. 25.

We leave to your judgment where the agitation toward distrust and division originated. Any person has a right to object to or be in opposition to, and to even cause distrust and division. However, when the majority of an individual governmental subdivision has rendered its decision, continued dogged opposition by the minority only causes distrust and division.

Much, certainly, has been said and more will be said on this matter, but any person who knows education at all, knows that good facilities with good teachers, offering a wide variety of subject material, is the ultimate goal of all school districts. However, a sound tax structure is needed to have these educational tools, irregardless of the Class of the District.

There has been massed together some twenty million dollars worth of valuation to finance the education of 180 to 200 students. We are just getting construction underway on a new $850,000.00 high school plant which will be second to none in our area. Persons in our community who are genuinely concerned about better educational opportunities for our young people, can only be proud, as we know the majority of the people are.

The writer of the letter in the Journal speaks of motives being questioned. Again in persistent opposition to Class VI Districts and their benefits, we find persons supporting legislation that would deprive individual governmental subdivisions of their constitutional rights because the writer's opinions and proposals were not accepted by the majority of the people. Referring to the amendment to LB 747 asking for a common mill levy over individual governmental subdivisions—this has been declared *unconstitutional* by our State Supreme Court.

We are shocked at the second, third and last paragraph of the writer's letter, to think that one would seek to destroy minority groups protecting the loss of individual rights, and for one to seek legislation to destroy the rights of the people of an andividual governmental subdivision, because the majority's will is not one's own.

Who has ever heard of the minority legislating against a majority, and bringing about voluntary unity and cooperation? Who would ask a legislative body to legislate against the majority of one's own school district?

The Legislature deemed it important to place the writer's letter of April 21, 1967 in its Journal. Surely the public, in reading that letter, could only arrive at a one-sided opinion of our community and our Class VI District. We wish to give the readers of the Legislative Journal an opportunity to weigh both sides, so we are asking you to request that this letter be placed in the Legislative Journal.

Thanking you for your kind and prompt attention, we are

Sincerely yours,

LEGISLATIVE JOURNAL—SEVENTY-SEVENTH SESSION

ONE HUNDRED THIRTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, July 20, 1967

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O God, stop us for a minute of prayer. Stop our anxious minds from wandering, and our wearied spirits from desiring anything but to know Thy will. Let us stand at attention before Thee and hear what Thou hast to say to us. We believe that Thou canst tell us not only what to do, but also how to do it. If it needs making up our minds, Thou who didst make our minds can show us how to make them up. If it needs changing our minds, Thou canst work that miracle too. Speak, O Lord, and make us hear, for Jesus' sake. Amen.

The roll was called and all members were present except Messrs. Carpenter, Carstens, Danner, Ely, Harsh, Kremer, and Pedersen who were excused; Mr. E. Rasmussen, excused until 9:20 a.m.; Mr. Payne excused until 9:30 a.m. and Mr. Burbach excused until 10:30 a.m.

REPORT OF EXECUTIVE BOARD OF LEGISLATIVE COUNCIL

July 20, 1967

Report of the Executive Board of the Nebraska Legislative Council on proposed Studies for the 1967-1969 interim period.

According to Section 3 of Rule 15 of the Rules of the Nebraska Legislature, Resolutions proposing that studies be made by the Legislative Council are to be referred to the Executive Board of the Legislative Council, which Board is to make recommendations to the Legislature that the proposed studies be made or rejected.

This Report covers the twenty-four Resolutions introduced during the session proposing interim studies.

Studies Recommended

1. **Legislative Resolution 33.** This Resolution proposes that the Revenue Committee as constituted during the 1967 session continue its work during the interim to study the impact of the sales and income tax.

The Executive Board is approving this Resolution with an amendment removing the reference to the Revenue Committee as constituted during the 1967 legislative session. A regular Legislative Council study committee will be appointed to undertake the project.

2. **Legislative Resolution 37.** This proposes a complete study of the question of calling a constitutional convention.

3. **Legislative Resolution 38.** This proposes a study of the laws governing the payment for care of patients in the state hospitals.

The Executive Board is approving this Resolution with the proviso and understanding that the study will also include the problem of assessment of costs as between the state and the counties.

4. **Legislative Resolution 44.** This is a proposed study of problems relating to ground and surface water as well as the proper utilization of water.

The Executive Board is approving this study with the proviso and understanding that it will include the problem of water pollution.

5. **Legislative Resolution 50.** This Resolution proposes a study of emergency communications operations in the state; to coordinate and standardize radio procedures over the entire state and to further coordinate the state emergency operations with the FCC, the Federal Highway Emergency Act, and law enforcement.

6. **Legislative Resolution 53.** This Resolution directs rural public power districts to investigate and implement a voluntary plan of merger and consolidation where more efficient operation would result, and that a Legislative Council committee study the problem in conjunction with the districts.

7. **Legislative Resolution 58.** This Resolution would create a committee to be kept fully advised on the realignment of public power facilities to bring about the results outlined in LR 43 adopted this session (Journal, p. 2291).

8. **Legislative Resolution 59.** This Resolution proposes a study of the problem of alleged discrimination in the acquisition, ownership, possession, and enjoyment of property in this state, the study to include a survey of approaches employed in solving this problem in other states.

9. **Legislative Resolution 60.** This is a proposed study of the scientific reappraisals of property completed or currently under way in the state, with emphasis on costs, methods, and variations in procedures among the various counties.

The Executive Board is approving this Resolution with the understanding that it will also include a study of the appraisal and reappraisal of tracts and lots upon which permanent, semi-permanent, and temporary structures are located and related questions.

10. **Legislative Resolution 66.** This is a proposed study of many facets of the rapidly increasing crime rate as it affects Nebraska.

11. **Legislative Resolution 67.** This Resolution would create a committee to study the Report and Recommendations of the President's Commission on Law Enforcement and Administration of Justice to determine their applicability to the State of Nebraska.

Resolutions 66 and 67 are somewhat related, and it is the intention of the Executive Board to assign them to the same committee.

12. **Legislative Resolution 68.** Under this Resolution a committee would be appointed to maintain liaison with the Department of Economic Development throughout its study of revising and reediting the laws pertaining to municipal and county government.

13. **Legislative Resolution 71.** This Resolution proposes a study of the establishment of work relief programs for recipients of county general assistance.

The Executive Board approved the study with the understanding that a committee will not be appointed, but that the staff of the Legislative Council will do the necessary research for a proper assessment of such a projected program.

14. **Legislative Resolution 72.** This proposes a study of the need for legislation concerning conflicts of interest in both the legislative and executive branches of government, including the existing Nebraska law and the laws and approaches of other states.

The Executive Board approves this Resolution in a form which omits specific reference to the Executive Board of the Legislative Council as the constituted committee to conduct the study.

15. **Legislative Resolution 73.** This is a proposed study of the feasibility of enacting a State Tort Claims Act so that citizens could sue the state under certain specified circumstances, and to survey the laws of the other states in this area.

16. **Legislative Resolution 74.** This Resolution proposes a study of the laws governing adoption of annual budgets by governmental subdivisions of the state.

17. **Legislative Resolution 77.** This Resolution provides for the appointment of a committee to receive the highway management study report, review the recommendations of the consultants contained therein, and consider possible legislation needed to implement such recommendations.

18. **Legislative Resolution 78.** This is a proposed study of the seed laws of Nebraska and other states.

The Board is approving this study with the understanding that it will be broadened to include feed as well as seed.

19. **Legislative Resolution 82.** This proposes a study of existing state policy in the field of higher education, considering the needs of the people, the needs of the state, and the role of individual public and private institutions within the state in fulfilling these needs.

Studies Not Recommended

1. **Legislative Resolution 56.** This Resolution proposed a study of the problems and needs of all rural and urban schools in all areas of the state.

2. **Legislative Resolution 61.** This Resolution proposed a study of the question of suitable plans for retirement of employees and officers of the state.

The Executive Board rejected this Resolution with the understanding that the regularly constituted Retirement Systems Advisory Committee would consider all retirement problems brought to its attention during the coming interim period.

3. **Legislative Resolution 75.** This Resolution proposed a study of the management and harvest of wildlife resources, outdoor recreation and tourist promotion.

4. **Legislative Resolution 76.** This Resolution proposed a study of the marketability of turnpike or toll road bonds.

5. **Legislative Resolution 64.** This Resolution proposed a study of several aspects of educational television in Nebraska.

Prayer

In this, the day that the Lord hath made, help us to appreciate its beauty and to use aright its opportunities.

Deliver us from the tyranny of trifles during these closing days of the Legislature. May we give our best thought and attention to what is important, that we may continue to accomplish those things which are worth while. Teach us how to listen to the prompting of Thy spirit, and thus save us from floundering in indecision that wastes time, subtracts from our peace, divides our efficiency, and multiplies our troubles. Prayer

Eternal God, our Father, we are grateful for the arrival of this final day, and for the work which has been accomplished during this productive session. Although frustrating for some, may the decisions be for the benefit of the people of this state. Forgive our failures and our pride. Wilt thou continue to give vision, courage, and integrity to all the members of this Senate. Bless them, their families and loved ones. Be with our governor, our officers, each member of this Legislature, and all public servants of this State. May the people of this state, realizing all which is worthwhile that has come from this Session, appreciate anew the ability and dedication of our legislature. Implant again upon our minds that greatness is found in serving, and success in helpfulness. Dismiss us with Thy blessing, keep us in Thy will, direct us in all our affairs, and may we as individuals continue to love Thee, our God, and serve our fellowman through the opportunities which lie before us as citizens of this state, of this land, and of thy kingdom. In the name of Christ, the Lord of Life. Amen.

RESOLUTIONS

LEGISLATIVE RESOLUTION 91. Re: Big Springs Interchange

Introduced by George H. Fleming, 47th District; Eugene T. Mahoney, 5th District; George C. Gerdes, 49th District and Elvin Adamson, 43rd District.

WHEREAS, a great deal of concern and criticism has been recently expressed in western Nebraska over the proposed design of the Big Springs Interchange for Interstate 80; and

WHEREAS, the proposed design would clearly have the effect of diverting traffic south into Colorado and away from western Nebraska and Wyoming; and

WHEREAS, the interchange is being constructed with Nebraska funds and should accommodate Nebraska interests, which can be done in the present case without interfering with the free flow of traffic either south or westward; and

WHEREAS, Interstate 80 South is merely a branch off the principal portion of the transcontinental route, but under the proposed design would have the most and easiest access at the facility.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SEVENTY-SEVENTH SESSION ASSEMBLED:

1. That the Nebraska Legislature shares in the concern over the proposed design of the Big Springs Interchange, and believes that it would be disadvantageous to the interests of western Nebraska.

2. That the Governor should direct the Department of Roads to reevaluate the proposed design and alter it so that traffic westbound, and not that south bound to Colorado, would be more easily and conveniently accommodated.

Mr. Fleming moved to suspend the rules and adopt LR 91.

The motion lost with 21 ayes, 13 nays and 15 not voting.

Mr. Hasebroock moved that a committee of five be appointed to wait upon the Governor and advise him that the Legislature is about to complete its work, and ask him if he was any further message for the Legislature before they adjourn.

The motion prevailed.

The President appointed Messrs. Adamson, Warner, E. Rasmussen, Hasebroock and Carpenter to escort the Governor to the Chamber.

The Committee escorted Governor Tiemann to the rostrum.

Governor's Message

Mr. President, Mr. Speaker, members of this distinguished group, ladies and gentlemen: I think it is fitting and important that we in this farewell address to the Legislature, that we talk and devote some time to what might be happening in the future. I would like to review very briefly with you some of the ideas and recommendations that I have with regard to the next session of the Legislature. We have in Nebraska an economy that presently is unbalanced. It is balanced heavily in favor of Agriculture, and that is as it should be presently. We have as part of this agricultural industry a livestock industry—about $750,000,000 on an annual basis, therefore it is important that we should consider the building of a pilot meat irradiation plant somewhere in Nebraska for the purposes of research and the purposes of preserving one of the most important products that the State of Nebraska produces. We are presently discussing with various segments of private enterprise and the Federal Government in our educational institutions, the research necessary for the building and developing of the meat irradiation plant. And in the next session of the Legislature, I shall have some recommendations to make to you with regard to this construction. And here in Nebraska again assume the lead in the nation in the matter of food preservation. Number two, we have begun the preliminary discussions and done the preliminary work in setting up a task force to expedite and create efficiency in the various departments of state government. This is patterned after the little Hoover Commission, primarily for lack of a better term. We are again working with private enterprise and we are borrowing from industry and from the professions, individuals who can conduct and be part of this task force, so that the Departments of State Government can be run on a more expeditious and a more efficient basis. Number three, I will recommend to the next session of the Legislature the creation of a Department of Public Safety. This will not be an entirely new department, but will be made up of the merger of old departments and existing departments. Primarily, the Nebraska Safety Patrol, Department of Motor Vehicles, the Accident Record Bureau, the office of the Highway Safety coordinator, the Telecommunications Division, and portions of the Department of Roads. I think it is necessary that we continue at all times with a view toward streamlining and the reorganization of State Government. We have made some strides in this manner in the state government thus far, but more needs to be done. Number four, we expect to streamline budgetary procedures at the State level. And we shall make recommendations for the uniform budgeting procedures at the local level and to make available to the local political subdivisions the computer services that the state presently owns so that budgeting procedures can be uniform. And at the same time to create a sophisticated statistical data gathering procedure that we presently do not have in state government, so that the 1969-71 Budget will be in more detail and more accurate than budgets in previous history. We shall conduct investigation and research into our parole and probation laws, and again we shall utilize talents and individuals from without the framework of government, expertees in this area. Number six, we shall review and evaluate existing commissions and committees with the view toward the elimination or the merger of these various commissions that have accumulated over past history. We shall make necessary recommendations for your approval or disapproval at the next session. Number seven, we shall study in depth and in detail the make-up and the procedures of the State Board of Equalization. This is especially important in view of the Supreme Court decision based on the last state Board of Equalization's actions, hopefully we can avoid a duplication of these problems. Number eight, crime is still a problem in Nebraska, and I hope that as a result of the resolution passed by this honorable Body that we can work closely with the interim study committee in making recommendations in the control of crime and crime prevention before the next session. And I shall be in contact and meeting with Col. Kruger, head of the State Safety Patrol with a view toward the expansion of his training center, so that law enforcement officers in the state of Nebraska charged with the enforcement of our laws, will have made available to them a training center on a voluntary basis and paid for by themselves. We will have more to discuss with the proper committee at the proper time. The need for a constitutional convention still exists. We expect to work closely with the committee based on the resolution passed by this Body in connection with the upgrading and modernizing and updating of our constitution. Number ten, we shall review all legislation that has to do with Vocational Technical Education. The problem of coordinating all institutions of higher learning still remains and I will make recommendations to this Body in the next session for the creation of a Council on Higher Education. Open housing legislation, though defeated in this session will be submitted in the next session. Not necessarily in the same language as LB 358, but similar language in the area of open housing. Number twelve, comprehensive mental health plans will be submitted. Dr. Osborn at the Medical Services Division of the Department of Public Institutions is presently engaged with Mr. Duncan and members of my staff and other people across the state in developing a mental health plan. This will be submitted to you for your approval. An ethics study group will be formed out of this Body and I am hopeful that this ethics study committee will recommend to the Legislature specific language on conduct of governmental officials at whatever level, so that if a conflict of interests does in fact exist, that it can be pinpointed accurately. With regard to a special session, this will depend almost absolutely on the recommendation of the Legislative study committee that will be appointed by the Executive Board of the Legislative Council. We shall make available all in the Executive branch to work with this study committee. Based on their recommendations we shall make the determinations whether we shall call a special session or not to deal with highway legislation. You have just concluded 134 days of the most important segments in the state of Nebraska. You have emerged from this legislative battlefield having passed the most significant legislation in one hundred years history of this great state. And yet you have passed this legislation notwithstanding the great obstructionists pressures from outside of the Legislature that I have witnessed and many observers have witnessed. You have passed this legislation over the myopic principles and attitudes of these groups and you have given Nebraska and Nebraskans the capability of becoming the true leader among states in the 20th Century. You have earned the eternal gratitude of every Nebraskan for centuries to come and I congratulate you on your tremendous courage and valor and wisdom. Thank you so much.

The Committee escorted the Governor from the Chamber.

STANDING COMMITTEE REPORT

Committee on Committees

Mr. President:

The appointments of John Sidner (Page 15, of the Legislative Journal 1967) and Frank Barrett (Page 233, of the Legislative Journal 1967) were not acted upon by the Committee on Committees due to the fact that Sec. 81-109 provides that heads of departments remain in office until a replacement is found, therefore, legislative action was not required for these appointments.
